 3. Balance of allocated funds currently held \$15,650 as per July Treasurer's Report
- The anticipated expense of the heater/AC unit for the Adirondack Museum Annex is \$9800 and asked the HHS Board for a resolution to spend \$5,000 as the HHS 50% contribution to this project. Discussion ensued with Supervisor Mike Geraci reiterating that exteriors of the Town of Horicon owned buildings and grounds were solely the responsibility of the Town and that the HHS may be asked in the future to consider contributing 50% toward any interior projects such as heat and AC, but would not be asked to contribute towards building structures, such as windows & doors and other exterior projects. Also, the expense for electricity to run this unit was the responsibility of the Town.
- Mary Ann Hill motioned to expense up to \$5,000 of allocated funds for the heat/AC unit to be installed in the Adirondack Museum Annex for the protection of historical artifacts as per the HHS bylaws and John Caruso seconded and the motion passed with one opposing vote. The \$9,800 bid for the installation of the heat/AC unit will be in the agenda for the August 21st Horicon Town Board meeting and will now carry the resolution of the HHS to provide up to \$5,000 of allocated funds towards this project.
